

SYMPOSIUM AGENDA

September 7, 2018

Massachusetts General Hospital
O'Keefe Auditorium – Blake Building, 1st Floor
55 Fruit St, Boston, MA 02114

**MGH Endocrine Symposium celebrating the scientific contributions and leadership of
Henry M. Kronenberg, MD**
*Professor of Medicine, HMS
Endocrine Division Chief*

1:00PM

OPENING

Katrina Armstrong, MD
MGH Physician-in-Chief and Head of the Department of Medicine

Michael Mannstadt, MD
*MGH Endocrine Unit Chief
Associate Professor of Medicine, Harvard Medical School*

"Observations on chondrocyte hypertrophy"
Clifford Tabin, PhD
Chairman of the Department of Genetics, Harvard Medical School

"CKD-Metabolic Bone Disease and its Cardiovascular Complications"
Andrew Karaplis, MD, PhD, FRCPC
*Professor in the Division of Experimental Medicine,
McGill University Department of Medicine*

TBD
Andrew Arnold, MD
*Murray-Heilig Chair in Molecular Medicine
Professor of Medicine and Genetics & Genome Sciences
Chief, Division of Endocrinology & Metabolism, UConn Health*

"My Eureka moment with Hank"
Joseph A. Majzoub, MD
*Boston Children's Hospital, Division of Endocrinology
Professor of Pediatrics and Medicine, Harvard Medical School*

"Pluripotent stem cells and skeletal regeneration"
Joy Y. Wu, MD, PhD
*Assistant Professor of Medicine, Division of Endocrinology,
Stanford University School of Medicine*

"Intracellular mechanisms of PTH action"
Marc Wein, MD, PhD
*Assistant Professor, Harvard Medical School
Physician, MGH Endocrinology*

3:00 – 3:30PM BREAK

“Control of mineral homeostasis during pregnancy, lactation, and fetal development”

Christopher Kovacs, MD, FRCPC, FACP, FACE
Professor of Medicine (Endocrinology and Metabolism) / Obstetrics & Gynecology, and BioMedical Sciences, Memorial University

“Henry Kronenberg - Thank You for the Mentorship and Inspiration”

Sundeep Khosla, MD
*Dr. Francis Chucker and Nathan Landow Research Professor
Mayo Foundation Distinguished Investigator
Director, Mayo Clinic Center for Clinical and Translational Science
Dean for Clinical and Translational Science
Mayo Clinic College of Medicine*

"Bone as a builder of blood"

David Scadden, MD
*Director, Center for Regenerative Medicine, MGH
Gerald and Darlene Jordan Professor of Medicine, Harvard University*

“Celebrating 33 Years!”

Marie Demay, MD
*Professor of Medicine, Harvard Medical School
Physician, MGH Endocrinology*

“Skeletal/mesenchymal stem cells - How much do we know about them?”

Noriaki Ono, DDS, PhD
Assistant Professor, University of Michigan School of Dentistry

“Skeletal Tissue Engineering: Development of high-performance structural biomaterials”

Ung-il Chung, MD, PhD
*Department of Bioengineering, Graduate School of Engineering
& Center for Disease Biology and Integrative Medicine, Graduate School of Medicine, The University of Tokyo*

“Origin and Fate of Osteolineage Cells”

Christa Maes, PhD
Skeletal Cell Biology and Physiology Leader, Ku Leuven, Belgium

“An MGH treasure: 48 years with Henry Kronenberg”

John Potts, MD
Director of Research and Physician-in-Chief Emeritus

5:30PM

CLOSING

Michael Mannstadt, MD
MGH Endocrine Unit Chief
